

COMMERCIAL WATER TREATMENT NORTH STAR PROFESSIONAL ADVANTAGE SERIES™

Because every business uses water differently, a North Star representative can assess your use and make recommendations. That's why the flexibility of North Star's commercial units is so important. Our equipment matches itself to your specific water usage requirements, for today and tomorrow.

TREATING WATER IS A SMART BUSINESS SOLUTION

When you run a business that uses water, it's important to have the hard facts: contaminants, minerals, metals, acidic or alkaline water costs the industry millions of dollars annually in additional maintenance and equipment replacement. No matter what kind of business you are running, quality water is indispensable for your operations and bottom line.

OUR SYSTEMS ARE PERFECT FOR

- Restaurants
- Bakeries
- Food Processing Plants
- Apartments/Condos
- Mobile Home/Manufactured Home
- Communities
- Medical Facilities
- Dental Offices
- Hair Salons
- Manufacturing Facilities
- Hotels/Motels
- Office buildings
- Schools

ECONOMICAL, HEAVY-DUTY SYSTEMS

INDUSTRIAL GRADE VALVE

Our valves have fewer than 25 moving parts, so they require less service than competitive valves.

HEAVY-DUTY TANKS

Durable, high-pressure resin tanks and rugged, long-lasting salt storage tanks withstand impact and environmental abuse.

HIGH PERFORMANCE SOFTENING MEDIA

North Star uses only FDA-approved long-lasting softening resin in every commercial softener to condition your water more effectively.

BEST-IN-CLASS SUPPORT

NORTH STAR HELPS WITH THE FOLLOWING:

- **APPLICATION PHASE:** Choose the best-fit equipment
- **SIZING DECISIONS:** Get the right size unit(s)
- **TRAINING:** Installation, application, and more
- **TECHNICAL SUPPORT:** Before, during and after, for the lifetime of the equipment.
